

# LMI C - DSD Technology<sup>®</sup> liquid end Electromagnetic dosing pump

Dynamic Stiffness Diaphragm

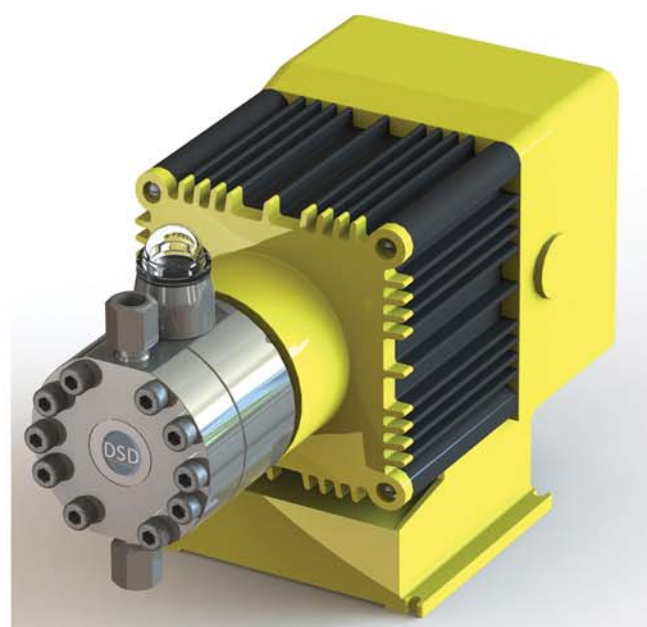

Reinventing metering pumps

**0.009 ml/h to 2.14 l/h**

**50 bar** stainless steel liquid end

**25 bar** PVC liquid end

The performances of a plunger pump, the safety of a hydraulic diaphragm pump

- Injection at very low flow rates of highly concentrated chemicals
- Metering of viscous products (up to 1,350 cP)
- High suction lift: up to 6 mWC
- Compact footprint
- Optimised complete pump life cycle cost (LCC)
- Liquid end made up of a limited number of components and few consumables
- Patented technology
